

Lettering in Baseball

- **Participation Award:** a player must be on the Freshman or JV team for the entire season. They need to have zero unexcused misses of practices and games. They have to play the entire year without quitting or leaving the team. This means coming both to practices and games and being a positive teammate and member of the Fulton Baseball system and community.
- **Provisional Letter:** To be on the varsity roster for minimum of 25% of the games. Coming to all practices without an unexcused miss of a practice or a game. Have a positive and encouraging attitude in all aspects of the sport.
- **Varsity letter:** A player must be on the varsity roster for over 75% (does not have play in 75% of the games, just on the roster) of the games. This means participate in practice and be at the games in a positive and encouraging way both on and off the field. They also must be a member of the Fulton Baseball system the entire season without leaving the team for one reason or another.
 - If a player makes the post-season roster (District Play and beyond) they will also qualify for a varsity letter if they either start a game or play more than 5 innings total in post season. They must also have a positive and encouraging attitude.
