

## COACHING COURSE OPTIONS – INFORMATION SHEET

There are two options available for high school coaches in New York State for required coaching coursework. These alternatives apply to both certified teacher coaches and non-teacher coaches. Information on course options is provided below along with timeline for completion.

**Non-Teacher Coaches:** Verification of completed coursework should be provided to the Regional Certification Office for evaluation purposes and to the district Athletic Director.

**Certified Teacher Coaches:** Verification of coursework should be provided to Athletic Directors of any school that the certified teacher coaches with. It is the responsibility of the teacher to maintain a copy and provide verification to any school district that he/she plans to coach with. **NOTE:** Verification is NOT sent to the Regional Certification Office since no evaluation is required for a certified teacher coach.
