VII. Concessions – Karen Marlo

- Concessions continue with indoor concessions. Lea Hart (freshman basketball mom) is our indoor concessions coordinator and she goes every week to check on supplies. We have been surprised at how much people are eating! The last couple of years we had disrupted concessions because of COVID so we had no real numbers as for predicting but now we have a better idea of what we need.
- We have purchased a hot dog steamer, which we will have for spring concessions. We thought about having it for the indoor but it is a little large and I was worried about taking over counter space given how small indoor concessions are.
- It is still on my to-do list to purchase the other equipment (stand, microwave, keurig) for outdoor use. Will be done by spring.
- Start spreading the word about needing someone to run concessions next year. Karen won't be able to do it but we have some good people helping and if we can snag a few more, the work will be less and more manageable!
